

Since joining ABCB as a member in 2019, Forefront Certification have found the organisation invaluable in its mediating to rationalise the member CB's concerns with UKAS.

Our Management of Extraordinary Events procedure incorporating COVID-19, was developed by useful guidance provided by ABCB, which in turn supported ForeFront to ensure a right first time approval by UKAS.

As a fairly young Certification Body, the recognition of membership in itself has enhanced credibility of our commitment to a professional approach with our interested parties. ABCB has been a supportive voice and certainly helped us with UKAS in terms of confidence that we are adhering to the standards required by a Certification Body.

Bal Gill, Managing Director
